Democratic Orator Makes Masterly Defense Of League

Fully Presents Argument That Wilson Plan Will Make War Impossible

EXPLAINS WORKINGS OF ART. X

The Democratic mass meeting at the Driggs theatre last evening attracted a crowd which filled the big auditorium to the doors. The Crescent Band of Curwensville added zest to the occasion with its excellent music, while the speech-making, in which Democratic achievements came in for much praise, brought vociferous and long continued applause from the audience.

County Chairman Gorman and his aides worked hard to make the meeting the success it was and deserved the praises showered upon them by the "unterrified" after the meeting was over.

The assemblage was presided over by State Campaign Chairman Hon. J. Frank Snyder, while some twenty prominent Democrats from different parts of the county were called to the platform as Vice Presidents of the meeting. Woman's County Chairman Mrs. Jennie Bigler, City Chairman Mrs. Frank B. Reed and a number of other ladies interested in the movement also occupied seats upon the stage.

Hon. John F. Crosby, of Hartford, Connecticut, was the first speaker. Mr. Crosby devoted his remarks to a eulogy of President Wilson and his administration and gave particular attention to the League of Nations. He carefully explained the much-discussed Article X and disclaimed any possibility of danger from this provision, claiming that under its provision no action even advising stern measures could be taken unless by unanimous consent of the twelve members of the council of the league. He said the purpose of the covenant was to prevent wars and that is what it would do.

Mr. Crosby's address was scholarly, argumentative and made a distinct impression upon his hearers. It was a plain straightforward exposition of benefits to be derived from membership in the League of Nations and contained nothing offensive to the opponent of the covenant.

Mrs. Jean K. Foulke of West Chester, Vice Chairman of the Democratic State Committe, was the next speaker. Mrs. Foulk' address was modeled along different lines. She was the mother of two boys who saw service in the world war and sought to rally all the women of the land against future wars by assisting in making America a member of the League of Nations by the election of the election of Governor Cox to the presidency. Mrs. Foulke injected some old style stump speaking in her address and proceeded to flay the enemy with a biting tongue. She lashed Penrose and Harding severely and put lots of pep and spirit into her remarks.

Mrs. Foulke is no stranger to Clearfield, having been here at meetings of the Woman's club and the State Grange, and her many witty sallies were most generously applauded.

Candidate for Congress J. D. Connelly was the next speaker. He stated that Clearfield county made up more than half of the 21st Congressional and during the past fifty years was given representation but three times. He said the county had always been ignored when favors were being distributed and asked for support from his home people in order that Clearfield and Clearfield county might be given her place in the sun.

At the conclusion of Mr. Connelly's remarks Chairman Snyder read the following telegram to the audience which had been received during the meeting:

Washington, D. C., Oct. 11, 1920
Chairman of Meeting at Opera House
Clearfield, Pa.

The National Campaign committee of the Sixteen Railroad Labor organizations after full, complete and impartial investigation recommends to all voters of the 21st Congressional District of Pennsylvania that they work untiringly and vote against Evan J. Jones for re-election. His record is so bad that he should not be re-elected.

National Campaign Committee
Edward Keating, Chairman

Chairman Snyder then made a plea for community endorsement for A. W. Lee, of Clearfield ad Rembrandt Peale of Barnesboro, candidates for Presidential electors from the 21st and 15th Congressional districts. He closed his remarks with a real old-fashioned Democratic speech in which he extolled the virtues of all things Democratic and belabored and bedamned all things Republican.

It was a great meeting with plenty of pep and enthusiasm. Mr. Crosby was a master of oratory and a gentleman in his utterances. While partisan his address was, to say the least, instructive.

CLEVELAND WINS WORLD SERIES BY DEFEATING ROBINS

The deciding game in the World's Series opened at Cleveland at 2 o'clock today with Covaleskie, the spittball expert twirling for Cleveland and Burleigh Grimes, back on the mound for Brooklyn.

Olson opened the game by flying out to left field. Sheehan did likewise Griffith hit to first base. Covaleskie covered first but dropped the ball and Griffith was safe. Wheat retired the side by flying out to second.

In Cleveland's half Jamieson was out at first. Wamby went out on fly to left. Speaker ended the inning with a fly to third.

Myers was out from short to first in the second. Konetchy out third to first. Kilduff was out short to first.

Smith was out second to first Gardnerhit to third. Sheehan threw wild to first, Gardner going to second. Johnston was given a base on balls. Sewell went out on fly to right. O'Neil out second to first.

Miller started the third for Brooklyn by striking out. Grimes singled to short left. Olson hit to second, who fumbled and Olson was safe at first, Grimes going to second. Sheehan hit to second, the ball hit Olson while he was running and he was out. Grimes was held on second and Sheehan was given a single. Griffith flied out to second.

Coveleskie was out on three strikes. Jamieson went out pitcher to first, Wamby beat out a slow grounder toward third. Speaker out second to first.

Wheat opened the fourth with a single to right and was out at second when he tried to stretch it into a double. Myers out at firts and Konetchy went out on a fly to right.

Smith out at first unassisted. Gardner singled to right. Johnston followed with a single to right. Gardner going to third. Sewell out on fly to left. O'Neil up. Johnston stole second. The catcher threw to third and the ball went wild. Gardner scoring. O'Neil out on fly to right. One run, two hits, one error.

Kilduff went out on a fly to center. Miller out second to first. Grimes hit to pitcher and was out at first.

For Cleveland Covaleskie fanned Johnston. Jamison beat out a bunt and was safe on first. Wamby out on fly to left. Wamby stole second. Speaker tripled to right and Jamieson scored. Smith went out on fly to third.

One run, two hits, no errors.

Olson out on fly to center. Sheehan out second to first. Griffith out on fly to center.

Gardner out at first unassisted. Johnston was given four wide ones. Sewell out on fly to center. O'Neil out on fly to third.

Wheat out on fly to right. Myers went out second to first. Konetchy singled thru short. Kirduff hit to short. Sewell fumbled and Kulduff was safe on first. Lamar "pinched" for Miller and was out second to first.

O'Neil doubled to center. Coveleskie hit to the pitcher and O'Neil was caught between second and third. Coveleskie went to second on the play. Jamison doubled to right scoring Coveleskie. Wamby went out on fly to centre. Speaker was given a base on balls. Smith also walked filling the bases. Gardner forced Smith at second ending the inning.

Schandt batted or Grimes and went out short to third. Olson out at first. Sheehan out second to first.

Mamaux replaced Grimes and Johnston went out on fly to third. Sewell was out on fly to center. O'Neil went out on strikes.

Griffith went out on a fly to the right in the ninth. Wheat singled to centre. Myers forced Wheat at second. Konetchy out second to first and the 1920 World's series went to Cleveland.

BEAUTIFUL MANIACAL MISS OF 15 IS CHIEF BOLSHEVIKI EXECUTIONER

PARIS, October 12—A beautiful maniac is the chief executioner for the Bolsheviki according to French prisoners returning here today. The girl, described as a Lettish beauty, with raven hair and burning black eyes, kills her victims with revolver shots fired into the back of the head. The brawny axe man of medieval days has yielded to a slim girl with unerring aim and a lust for blood.

French prisoners were repatriated after having spent a term in the Butirki prison at Moscow. This institution was filled with 3,000 men from all ranks, students, workmen, robed priests and uniformed officers. All were herded into dirty cells which were the play ground for vermin. The prisoners described the girl as a raving maniac of 15 years of age.

MOUNTAINS WILL BE DRILLED TO FIND GAS

Thorough Test of Lands Near Clearfield Is About to Be Made By Pittsburgers

MACHINERY IS ARRIVING HERE

A company of Pittsburgh capitalists have arranged to drill for gas on the mountains about fourteen miles north of town and propose making an extensive test for both oil and gas in that region.

It has long been contended that the gas and oil belt passes thru the mountain ridges north of town and it is now proposd to establish that fact once for all or else demonstrate that this section of Clearfiled county at least is offside so far as the oil pool or basin is concerned.

These Pittsburgh capitalists, who prefer to remain incognito, have had all the mountain lands on the headwaters of Trout, Lick, Stone and Medix runs under lease for years and this is the first time a real attempt has been made to determine whether or not these highly desirable materials exist in paying quantities.

Several years ago a well was drilled opposite the John Whaling farm house on the Amos Owens farm but neither gas nor oil was found. Those in charge of this operation contend that the drilling was done in the wrong place or at the bottom of the basin or pool, whereas it can only be hoped to find gas at the summit or high point in the field.

The first well to be drilled at this time will be located between the Punxsutawney and Pitch Pine camps, and water for the use of the drill will be taken from the Punxsutawney camp branch of Cold Stream.

The work is in charge of geologist A. A. Williams, of Ridgway, who has spent the past summer on the mountains getting things in readiness for the new operation.

Several car loads of machinery destined for the new operation arrived in Clearfield yesterday and the work of transporting it to the location of the proposed gas well will be started tomorrow. Nine teams will be used to haul the same up the mountain. The McGeorge road will be used from the Goshen camp out and the road is now being repaired for that purpose.

The concerns interested have possibly forty thousand acres of land under lease every bit of which will be tested for oil and gas. This lease includes the 22,000 acre holding of the Witmer-Stele lumber company, who recently disposed of about all of the surface, retaining the mineral rights on same.

Ex-Sheriff Con Allen, City Chairman Thomas Munro and legislative candidate John P. Rogers, of DuBois, attended the Democratic meeting last evening.

'Squire Duckett and wife are visiting friends in Stoneboro and Cleveland.

Miss Elizabeth Bain has returned from a visit with relatives and friends in Bedford.

Mrs. Howard Milligan spent today shopping in Altoona.

MINERS ARE VOTING FOUR TO ONE TO STAY AT WORK

That the miners of District No. 2 U. M. W. of A. will not sanction a strike and an abrogation of the scale agreement in the referendum vote that is now being taken, is the unanimous opinion of persons interested today, although there is still a possibility that a strike will be voted.

Returns from locals in this vicinity indicate a sentiment of four to one against striking, and President John P. Brophy, at headquarters, stated that the general sentiment throughout the entire district as the headquarters staff is able to interpret it, is about the same ratio against striking.

Average 4 to 1.

In the DuBois region, Helvetia, Sykesville, Waston and Wishaw, have all taken their votes, while the other mines in that section will vote some time between now and Saturday.

Figures for Helvetia, Sykesville, Walston and Wishaw are not given out as yet, but reports from these locals indicate that Sykesville voted 5 to 1 against strike, while Walston voted 3 to 1 against a strike and the majority at Wishaw and Helvetia was equally overwhelmingly in favor of working, the percentage being 4 to 1 against a strike.

All of these are big locals and, added to the 8 to 1 majority for working gien by the two South Fork locals, gives the proposition to strike a severe handicap. No others have yet reported, as far as can be learned, and it is believed that practically all will render decisions against a strike, the average being about 4 to 1.

The voting will all be completed this week, Saturday being the last day for reporting them, but it is not believed that the official totals will be announced before October 23.

HUNTINGDON HIGH TAKES CONCEIT OUT OF RED AND BLACK

By DICK LEIPOLD

On last Saturday morning Coach Heisey and his squad of "pig skin artists" made their weary "wind over the mountains to Huntingdon to do combat with the Huntingdon High for supremacy of the gridiron

The "Hun"-tingdon team, still peeved by the sting of former defeats, had been preparing to get revenge, and C. H. S. had no sooner alighted from the train than they were confronted with a "gas attack" as to how they were going to be wiped up.

The "gas" evidently had its deadly effect. for after hostilities ceased and the smoke of battle cleared it was discovered that in addition to other devastation created by the Huntingdon team, they had piled up 68 points to Clearfield's 0 — "Ain't that terrible? You tell 'em, Valentine. I haven't the heart." But don't think for a moment that C. H. S. retreated. They fought with their backs to the wall to the last minute, having to contend with the deadly flying tackle around the neck—not permissable in modern

WONDERFUL MAGNA VOX WILL BE HEARD ON THE COURT HOUSE CORNER

HARDING-COOLIDGE CLUB BRINGS SPEECHES OF HARDING, COOLIDGE AND HAYS TO BE HEARD TONIGHT

M. WARD FLEMING WILL SPEAK

Today marks the beginning of the Repubican campaign in Clearfield for the election of the Harding-Coolidge ticket and a general booster meeting of the Harding-Coolidge club has been called for eight o'clock at which there will be an interesting, entertaining and instructive program carried out.

The club today received Columbian Records of the speeches of Messrs. Harding, Coolidge, Hays and Mrs. Corrine Robinson, a sister of the immortal Roosevelt. If these records were to be played on the ordinary talking machine it would not be much of a novelty but these records are the only ones of their kind in Clearfield today and in addition to that the speeches are to be reproduced on the wonderful Magna-Vox, a high powered voice amplifier which will enable the wisdom of these patriotic citizens to be heard more than a block away from the machine. It is expected that the machine will be set up on the court house steps so that no difference how large the crowd there will be an opportunity for all to hear the speeches of the Republican candidates and Mr. Hayes and Mrs. Robinson.

The titles of these speeches are:

"Americanism" by Mr. Harding.
"Law and Order" by Mr. Coolidge
"Citizenship" by Mr. Will Hays
"Safeguard America" by Mrs. Robinson.

There will also be a musical program of band music on the Magna-Vox.

M. Ward Fleming, Esq., of Philipsburg, and local orators will be on hand to discuss the political issues.

Eerybody turn out, men and women and children. There will be room for all on the public square.

Hear the Hawaiian Music at Trinity church out for good things to eat you won't have to search. You will have a good time, the music is free. Are you folks going? Well, so are we. 10-12-1t ch.

They motored out to their camp site recently and report deer signs very plentiful in that region.

The camp will be known as Read's Hunting and Fishing club being named after Mr. Read who is the oldest member of the club.

THE BATHTUB STEW IS LATEST BOON TO MANKIND: SERVES TWO PURPOSES

The newest method of lawfully showing the eighteenth amendment a thing or two: The Bathtub Stew!

Cheap, very effective and entirely legal are some of the points that have made the new souse so popular, according to many of its devotees, and to many city physicians as well.

So here it is:

Recipe—One gallon of medicated alcohol; one gallon of very [illegible] water; [illegible] minutes. Result "One [illegible]."

The Saturday night [illegible] and the Saturday jag combined [illegible]

And not only is there economy of effort, but more important, there is a large saving in the weekly pay. For one bath is not gone as is one drink, but remains to be of service Saturday night after Saturday night.

If such were not the case, a bathtub stew, no matter how exhilerating and enticing would come at a rather steep figure. Medicated alcohol sells at most drug stores at $1.25 a pint. A gallon would therefore, hit the bank roll to the extent of $10.

For that amount a reasonably good jag can be obtained on bootleg whisky and, as the male of the species has beome more accustomed to drinking than bathing—that is of course, bathing to get pickled—the old-fashioned method of mounting the heights would prevail over the new.

But here is the idea: One has his valet prepare his tub or he prepares the tub himself, as the case may be, and then he lies quietly in the steaming water until, as the saying of the olden days was he "begins to feel himself slipping." Then he goes to bed and drops to sleep, or wrecks the furniture; or becomes kind to his wife, according to his nature. In the meanwhile, the valet, or one of the children, or someone, who is not apt to be the wife, re-bottles the bath, and all that it requires for the next stew is reheating. And so on and so on,

NO PROOF THAT LEAGUE WILL END WARS

IS AMERICA BOUND TO GO IN?

A PARADE OF HORRORS PASSES IN REVIEW

ANOTHER PARADE MAY COME OF LEAGUE

No harm could have come to any person thru attendance at the Democratic mass meeting held last evening which was addressed by the Honorable Mr. Crosby, an able exponent of the Wilson league of nations plan. This league plan, be it good or bad, the dove of peace or the beast of the cloven hoof, is altogether too serious a matter to be disposed of on strictly party recommendation. No patriotic, truth seeking American with the interest of his family and his fellow citizens at heart can afford to take snap judgment on such a matter and while the lecture or political platform is about the last word in biased information yet it could reasonably be depended upon that no argument in favor of the league would be overlooked by so ardent a Wilson man or able speaker as Mr. Crosby. It was this desire for knowledge that took dozens of Republicans, the writer included to the Driggs Theatre last evening. It would be an untruth to say that we were entirely of an open mind because as a practical idea we have never been able to work up in our own mind any great enthusiasm over the league plan.

Mr. Crosby's argument that our job "over there" was not complete until war is put beyond the pale of being a possibility is based wholly on the presumption that the mere existence of a league would prevent war and does not take account of the fact that the nations of the league would have to wage war on the criminal nations, as he called them, in order to subdue them. The gentleman forgot himself to such an extent that he pointed out how nearby nations would handle recalcitrants thus inferring that ours would be no more than an honorary membership fighting economically, possibly making munitions and sending them wheat flour while we once more lived on war bread a la Hoover.

Our national honor in connection with the league was masterly handled. He gave dates and quoted undisputed facts in support of his contention that the Republican party platform of 1912 and 1916 endorsed a league plan, that the U. S. Senate had on at least one occasion gone on record as favoring a league to end wars, that it had at one time passed a resolution calling on President Wilson to take steps looking to the formation of a league of nations. But here he ended. He gave us no proof or even statement that the U. S. Senate had even intimated to President Wison that he should impose a treaty and league plan upon the American people without consultation with them or with their duly elected representatives.

It is a singular fact that no platform orator, particularly a political orator, makes any allowances for honesty in the convictions of his opponents. It was the heighth of absurdity for Mr. Crosby to emulate Mr. Cox in charging Smoot, Lodge and Penrose with defeat of the league plan. Never did this newspaper give any of this trio a commendatory line. It could not follow their lead although it will proudly march with them under the banner of Americanism. The immortal Roosevelt, the very antithesis of that trio, joined hands with them in honest purpose. The "Senate oligarchy" is a phrase that will make little appeal to the intelligent voter who believes in representative government as against one man rule and we believe that the strenuous fight the Democratic party is making in defense of Mr. Wilson and his international policies is evidence that the members of the U. S. Senate were just a little closer to the "heart of America" than was Woodrow Wilson when he landed in New York from Europe the first time and within four hours after landing, and after an absence of many months, gave out for European consumption, a speech declaring America was for the league.

The speaker declared the league issue transcends all domestic issues but before seconding that statement we feel like making some "interpretive reservations." If the emphasis is placed on the word issue we agree. In Article Ten we find the heart of the covenant, the teeth of the pact. Of it Mr. Wilson said:

"There is a most compelling moral obligation." Americans must and do look upon moral obligations as being on a par with the written bond. Could anthing be more compelling than a moral obligation when a nation's honor is at stake?

AND Mr. Cox, apparently fearing the words of Mr. Wilson, scraps the moral obligation and points only to the legal obligation saying in his memorable speech "any school boy knows that we cannot go to war with anybody until congress gives ts sanction."

Now along comes Mr. Crosby from Connecticut to explain in detail the functions of the league council and show us that our nation cannot be drawn into a European war until the council by unanimous action endorses the move and declares that since the United States is represented in that council by one vote the acquiescence of this one representative of the United States will be necessary before we are drawn into war. So far so good and all true but the polished political orator knew when to quit. Just at this point the orator graphically described the horrors of war, the ravishing of cities, the sufferings of men, the terrible slaughter of mere boys, the anguish of mothers, wives and sisters and brought his oration to a close with a parade of the dead, the maimed, the disease wrecked of the late war.

Of all the factors that enter into the consideration of international relations sentiment is the most dangerous. In dealing with the old politicians of European nations there is no place for sentiment for the very simple reason that in a Cemenceau, an Asquith, a Lloyd George, a Bismarck, an Ebert, a Millerand, a Vinezelos, a Nitti, et al., there is no sentiment. Their bickering and bartering over territorial rights in which even Mr. Wilson had to sacrifice his Utopian fourteen points should be proof sufficient that there is no charity in them and any party to the covenant who signs on a basis of mere maudlin sentiment is crucifying itself on a cross of its own making.

We cannot look at the league plan from a sentimental standpoint. It is impracticable and impossible. We must look at the hard cold facts of our responsibility as members. And while the parade of dead, maimed and wretched was being oratorically paraded past the audience in the theatre last evening we could not help but see another parade passing down a street in the great future, a parade far more pitiable. We cannot say that the apparition we saw will happen but it is one of the possibilities under the league plan.

We saw Europe again embroiled in a selfish trade or racial warfare with one or two nations chafing under the restraints of the league. The league council was hastily summoned, including the American member. Their action in making war to crush a criminal nation or nations was all but unanimous—the American member hesitating about again putting the young men of his country at the beck and call of European militarists. He knew there was no legal obligation for him to do so but there arose in that council a cold-blooded tactician who gazed steadily into the eyes of the American member, pointed his finger at him and exclaimed, "the author of this instrument, the head of your own nation, has said 'there is a most compelling moral responsibility' are you going to shirk it?" No! He cannot shirk thee responsibilities thrust upon us. He joins in the recommendation. It comes to congress. They hesitate when again the same cold finger is directed at them by the foreign ambassadors at Washington, the munition makers join in urging this high moral action, every pressure is brough to bear upon us—and congress must perforce yield.

Once again we hear the roll of the drum, the call to arms, the summons of draft boards. Once again they set foot on European soil—not to prevent wars but to help fight all wars. Once again they return maimed and wounded. This is the other parade we saw.

But, you say, if there is any possibility of preventing a war why not go into the league?

In the recent war with Germany the people of this nation were the sole judges as to the necessity of going to war. Once in the league we will lose that sovereignty and be subject to "the most compelling moral obligation."

We have a son who, in the event of an attack on this nation or an attack on its citizens in other climes, we shall be proud of when he answers the call of his country but God forbid the day when he shall be called upon to go to Europe or Africa or some other clime to fulfil that "most compelling moral obligation" thrust upon us by a man whose idealism led him to dreams of a super-world empire whose mission it would be to chastize all the wayward nations on God's footstool with himself as Chief Disciplinarian.

DOUBT TRUTH OF CONFESSION MADE BY PASQUALE

NORRISTOWN, Oct. 12.—Geo. H. Coughlin, father of Blakely, today was inclined to doubt the confession of August Pasquale that he had accidently smothered the child and buried it near Egg Harbor. Nerve racked after a day spent with the state police in searching for the grave at Egg Harbor Coughlin harbored a hope that the confesion is false and that Blakely was alive. Long confinement in a cell in the Norristown prison is believed to have unnerved Pasquale so that he told wild stories. The nerve center for the search for the grave for little Blakely is the room in the Coughlin residence where the mother sits and weeps for hour after hour for news. Supported for the first few weeks after the kidnapping by the hope that Blakely would be returned soon she is now on the verge of collapse by the latest confession of Pasquale.

HARRISBURG, Oct. 12—Efforts to locate the body of Blakely Coughlin along the banks of the Schuylkill river near Norristown under the supervision of Major Lynn Adams of the Penna. State Constabulary have been unavailing, according to the Department of State Police here today. After searching where Pasquale in his confession alleges he buried the body a piece of string and a rail to which the kidnapper said he had tied the baby were the only things found. This information was telephoned to the office of the state police this afternoon by Major Adams who has been directing the search for the boy after Captain Gerhardt had been called to assist in the search along the river banks. A professional diver has been engaged, and is working around the spot where Pasquale said he threw the body into the river.

Why, it's the science of interfering in public affairs."

Any farmer who is in the hog [illegible] knows that it does not pay to be [illegible] to a hog any more than absolutely necessary and [illegible] a hog in order to be healthy, [illegible] harvest his own crops.

[illegible] whether pasture of rape or corn is to be utilized, the foundational necessity is a fence which will hold the hog where you put him and not allow him to do damage to other crops on your own or neighbors' farms.

In every rotation the fields should be so fenced that the hogs can do all of the harvesting possible. In planning a rotation the matter of permanent and movable steel fence is of the utmost importance.

The cafeteria system of hog feeding is the most profitable and "hogging down fields" is the most economical way to harvest.

How We Care For Your Meat Cars

When you see a Swift Refrigerator Car going by in a train, it seems a simple thing that it should be carrying fresh meat up and down the country.

Like most of the packer activities which contribute to your welfare, you are so used to having this going on uninterruptedly, day in, day out, throughout the year, that you are likely to take it as a matter of course.

But it is not a matter of course. Every car you see going by means long hours of minute, scientific, painstaking care in preparation for what it is doing.

Every time a car comes in it is washed out thoroughly with scalding water. If any taint, any foreign matter, were present, this would get rid of it. Even the meat hooks are taken down from the racks and scalded with water and live steam.

When the car is thoroughly cleansed we put in 5,000 pounds of ice. But that is only preliminary. It only cools the car to the proper temperature. By the time the car is moved over to receive its load, this first ice is melted. More is then put in to keep the car cool.

Then the meat is hung on the sterilized hooks and the load of food is ready for its journey. It arrives as it leaves, clean, fresh, wholesome, appetizing; and your meat supply goes on unaffected by seasons or weather.

This is only a part of the service which Swift & Company furnishes, at a profit to itself so small—averaging a fraction of a cent per pound on all products over a period of years—that if the profit were handed on to the consumer, it would make a difference of less than a nickel a week in the meat bill of the average American family.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Rev. John C. Collins has announced that he will deliver his celebrated lecture on the subject of "The House That Jack Built," in the Methodist church on Thursday evening, October 21st. Last Friday evening he delivered a lecture at Curry Run.

Don not forget the meeting called for tonight of citizens of this borough and of Pike township to be held in the high school building for the purpose of forming an organization in the Clearfield county hospital drive. Are you interested? You do not know how soon you or some member of your family may be compelled to ask admission to this institution. Women as well as men are vitally interested in this movement. All come and assist in this most worthy cause.

Mr. William Russell of Grampian visited over Sunday with Curwensville friends.

Owing to a decision rendered last week by the State Commerce Commission it is left in the hands of the railroad companies whether or not the coal wagon loaders will receive open cars in which to load coal for the open market.

During the fine weather of two or three weeks past the contractors of the State Highway, between this place and Hyde city have been pushing the work along admirably and a great deal has been done toward the road's completion. Should good weather hold out for another month, the road will pretty nearly reach completion, or near enough so as to allow the driving of vehicles over it during the winter months at least. It would be a great relief to travelers if this road could be used, thereby cutting out that bad detour by way of the Porter bridge, which becomes almost impassible during the bad weather months.

James Decker has purchased from Oliver Strunk, administrator, a dwelling house and lot over at Eastvue, paying for the same the sum of $1,100. The property is conveniently located and in a short time Mr. Decker will make a comfortable, neat home out of it.

Born, to Mr. and Mrs. Edward Back, at their home in Naulton, at an early hour Monday morning, a young son, making the fifth male heir in the family.

Mr. Samuel Martin drove his car from Niagara Falls last week, and contemplates spending several days in Curwensville with his mother, Mrs. Henry Martin and several sisters.

It has been announced by rumor that Mr. Lester Bartell and Miss Edith Blake were wedded about one month ago at Buffalo and are residing in Detroit, where Mr. Bartel is engaged in a responsible position with one of the large automobile manufacturing plants. The bride is a daughter of Mr. and Mrs. John Blake of this place and for several years has been following the profession of a trained nurse in one of the leading hospitals in Rochester N. Y.

Mr. D. R. [illegible] returned home [illegible] visiting [illegible] at Mendota, Ill. On his way home he stopped over a day in Chicago, and spent the time with Willis Tate, an old Curwensville boy, who is engaged in the insurance business. He reports that the crops in the Hoosier state are about on the average though [illegible] cover or in sheds and barns.

From reports that have reached us, old Curwensville must have been indulging in some of its old time tricks, when booze was a little easier to procure at a much less cost than now. Several fistic encounters were pulled off Saturday night, as the result of which some eight arrests have been made, the participants being asked to appear before 'Squire Dale Wednesday evening and show cause why they should not be assessed with the usual fine.

Mr. John Haley, who has been engaged in the lumber and coal business near Lumber City and farther up the river, was a business visitor to town yesterday. He is at present operating a mine near his own town, Lumber City, and also is engaged in other lines of business which takes up considerable of his time.

Mr. Willi[illegible] Dyer has gone to South Carolina where he has secured a lucrative position. "Pass" has a good many friends in Curwensville who wish him luck in his new home.

Lim Daugherty is a great fellow to fix up his store windows in a manner which attracts the eye of every man who has any sport in him and who likes rod and gun. Two specimens of his skill can be seen, one in each window of his store and [illegible] a good deal of attention.

Mr. [illegible] noted in this letter.

Mr. Hunter!

THE BATHTUB STEW IS LATEST BOON TO MANKIND

(Continued From Page One)

until one succumb to the D T something else happen

The theory of the bathtub stew is that alcohol enters the body through the pores of the skin given time quite as effectively through the mouth according to physicians and druggists It has long been known that the alcohol rub was due in part to something other than the friction produced

The theory doctors pointed out yesterday poisoning could be caused by a man covered from head to foot with liniment partly would be able to serve for long hours

What effect the bathtub stew popularity would have on the health of the bathers physicians hesitated to say yesterday It was the general opinion that he would be cut from consuming alcohol in that manner than in the old way

To obtain the best results in getting pickled in the tub is to cover the top of the tub with a heavy sheeting allowing only the head to protrude, it is declared by those who have tried

One is given a vapor bath in this way and obtains not only the effects of the alcohol in the water but that in the steam as well

"Hands always should be thoroughly cleansed before touching the patrons face head hands or feet and brushes should be washed in soap and water immediately after use, then immersed in a formaldehyde solution and dried in the sterilizer in which they may be subjected to the fumes of formaldehyde until ready for use"

It is a comparatively easy matter to sterilize hair brushes and combs at home A few drops of formaldehyde in hot water and thoroughly drying and sunning of the hair brush after combing it out will prevent it from spreading dandruff or other disease

We Fit Correct

The correction of vision defects is more than merely trying on glasses until you find a pair that apparently fits.

We go farther than that. We use instruments scientifically designed to detect the eye defects and after a careful diagnosis of the instrument readings we fit lenses that will overcome the trouble.

Come in and ask us about it.

MARQUARD GUILTY WILL BE BARRED FROM BROOKLYN

CLEVELAND Oct. 12. — Rube Marquard cannot play base ball with the Brooklyn Robins again, owner Chas. Ebbets declared this afternoon after he had been found guilty of ticket scalping. He will not withhold his World Series money as he feels Rube has been punished sufficiently by the notoriety he has been given. Rube was given a nominal fine.

The officer who made the arrest said he had heard a man ask Marquard where he could get tickets and Marquard took him to one side. Marquard said he would sell him six tickets for $350. The man could not be tempted. Another man approached Marquard with a similar request and again Marquard took out the tickets and offered them for $350. "A clerk at a cigar stand tipped Marquard off that I was a detective and Marquard put back the tickets," the officer testified. "I told him I had heard him offer the tickets and that it was a violation of the law and that he would have to come with me."

He said at headquarters that he was the fall guy for the tickets. He said he and bought them for $275. Marquard defended his action on the ground that it was a joke. "I was just joking with a man I knew very well," he said. Among the spectators at the hearing was John Heydler, President of the National eague. He said he would take no official action against Rube.

foot ball, and were also handicapped by the excessive avordupois that Huntingdon possessed.

When Clearfield was on the offensive it was noticeable that Huntingdon knew exactly where the ball was going, and after the game was over some Huntingdon players "spilled the beans," and volunteered the information that they had a scout at the Clearfield-Kane game who made note of all the Clearfield plays, and the Huntingdon scrubs used them all week against the varsity.

Like the regular "Huns" the "Hun" tingdon players used many methods of warfare not recognized in modern foot ball. Their cohorts, the assemblage, was also hostile while the battle raged and extended no sympathy to our injured players, not even allowing them to recuperate when knocked out. At one time during the game, C. H. S. had but ten men playing, having utilized all the "subs."

After the war clouds had passed, and peace reigned once more, the Huntingdon boys liberated the dove, and entertained the vanquished warriors from Clearfield to a party and dance, which helped considerably to soothe their "sores."

C. H. S. did not show the pep that was expected of them, which was no doubt due to the unexpected form of attack that Huntingdon cut loose, but they need a shaking up, and a game like this early in the season is just what was needed to reform them, and as Huntingdon is noted for its reformatory, it couldn't have happened in a more appropriate place, and since the reformation, the C. H. S. boys have set their jaws and will dig in as never before to win back laurels for the Red and Black by beating Clarion Normal here next Saturday afternoon with the clean brand of modern foot ball that they are noted for.

Rats Cause Loss to Cane Growers.

Cane growers in Porto Rico estimate their annual loss at $75,000, due not only to the cane actually destroyed, but also to the fermentation set up in the cane juices in the stalks that had been gnawed upon, thus reducing the purity and the sucrose content. This loss was based upon the estimate that only one-half of 1 per cent of stalks were attacked by rats; but in reply to inquiries, the estimates made by different planters varied from 1 per cent to 4 per cent of stalks attacked by rodents.

Big Eaters Get Kidney Trouble

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure makes a delightful effervescent lithia water beverage and belongs in every home because nobody can make a mistake by having a good kidney flushing any time.

World Series Men Need Not Worry About Coal Bills

(Continued From Page One.)

coal for the winter. Far from it, as they will have the pleasure of splitting a robust purse of $214,882.74 for their baseball doings in the five games, three at Ebbets Field and two in Cleveland.

Of this tidy amount the contesting players will receive 75 per cent, and the second and third clubs of the American and National leagues the remaining 25 per cent. The other clubs to cut in on the spoils are the Yankees, Giants, White Sox and the Reds.

Therefore the Robins and the Indians will divide $161,160.05, of which 60 per cent will go to the winners and 40 to the losers. If the Indians win the series they will become the owners of $96,696.03. This will be divided among twenty-three players and the individual share will be $4,204.17. One full share will be presented to Mrs. Ray Chapman.

If the Indians lost they will divide $64,464.02 and each Cleveland player's portion will be $2,802.78.

Because twenty-seven players are eligible to take part in the series, each Robin will recieve less than $1,000 if the Brooklyn team eventually wins the series. If every one of the twenty-seven players receives one full share, the individual part of the spoils for the robins, will be $2,387.48. If the Robins lose, each Brooklyn player on the basis of twenty-seven shares, will receive a check for $2,387.48.

Most likely not more than twenty-two players will receive a full share, as Bill Lamar and Tommy Sheehan joined the club late in the season, while George Mohart. John Miller and Bill McCabe took part in only a few games during the pennant race. The regular Robins, if they beat the Indians, will receive approximately $4,000.

The Yankees, Giants, Reds and White Sox will split $53,722.64.

In neither case are the figures as great as for the last year's series, when the winning Cincinnati players got $4,881.55 each and the White Sox $3,254.37. Fifteen Chicago players not implicated in the scandal that was attached to that series received a $1,500 bonus from Charles Comiskey.

The receipts of the remaining games go to the two clubs and the National Commission. The clubs will get 90 per cent and the National Commission 10 per cent.

JAMES H. MINDS ADDS $5000 TO HOSPITAL FUND

James H. Minds, coal operator of Ramey, and Clearfield County Pioneer, KNOWS the Clearfield Hospital—knows of its accomplishments and its efficiency. And when he learned of its conditions and urgent needs he sent in a $5,000 Liberty Bond to help along the campaign for a $200,000 maintenance, endowment and building fund for the hospital. Mr. Minds' gift was the largest recorded yesterday.

Through the aid of the Clearfield Hospital several of Mr. Minds' relatives have been restored to health, the most recent being his daughter, Mrs. J. W. Sceruman, wife of the Grampian grocer who is district chairman of the campaign in his region.

"This most generous gift is most praiseworthy," said H. B. Powell, who is general chairman of the campaign, "in view of the fact that Mr. Minds lives somewhat outside the border of the area served by our hospital Though this is but one of many charities, we believe the gift of Mr. Minds indicates the kindliness with which the movement is regarded by the people of Clearfield county."

Tabulations have not yet been sufficiently completed to enable the names of the many donors to be published, but the entire list, which is growing hourly, will be announced as soon as possible. The team workers today reaped another golden harvest, and the total to date is roughly estimated at $60,0000.

All now depends on the thoroughness with which the team workers make their house-to-house canvass throughout the county. The weather is in their favor and has whetted their enthusiasm, with the result that big strides already have been made toward the $200.000 goal.

CARD OF THANKS

Mr. and Mrs. Helmer Jonhson of Dorey street wish to express their many thanks to their kind friends and neighbors for their greatfulness toward them during the illness and death of their son Victor and daughter Elsie. The Johnson home was a bright and cheerful little home, of which consisted of four little bright children just in the bloom of life. Now there is very much sorrow in their little home over the loss of the two little childrn who were called to the better world. Yet is it sweet to think they are in better hands than anyone in this world can offer them. Would it not have been more sorrowful to the little remaining family had they not had helping hands and cheerful words to comfort them?

Many, many thanks are offered to Mrs. Russel Williams and Mrs. Lloyd Thompson for their faithfulness and much toil from the beginning of the illnes sand death of the two children. They, too, offer equal thanks to every friend and neighbor who gave a helping hand and strived to make the Johnson home happy once more with the thoughts of leaving their loved ones just for a while and expect to meet them some day in the new world.

Mother of Two Pairs of Twins, and Still Enjoying Good Health, Thanks to Nerv-Worth.

"My wife is the mother of twin boys, 4 years old, and another pair of twins, 9 months old. Looking after these children was quite a strain on her, and besides, she suffered from severe nervous trouble for the last four years. She couldn't get any sleep or rest, and she doctored a great deal, but got no relief. Through a friend she was advised to take Nerv-Worth. I purchased a bottle for her, and she at once began to improve, and now after taking the second bottle, she has lost all her nervousness, and is rapidly gaining strength and weight. We surely recommend Nerv-Worth, as it has been a blessing to us." Thus wrote Dave Harris, of 411 Vine street, New Castle, Pa., some time ago in an effort to show his appreciation for the good Nerv-Worth has done for his wife Raising a family is quite a job, and these are many women who's daily tasks have become a burden to them because of the fact that their nerve force is low, their stomachs deranged and their health not up to normal. The daily work of a mother causes a constant mental and physical strain and it is necessary that this be avoided, otherwise the whole system suffers. Keep your nerve force up and your whole system will be in good shape. Take Nerv Worth and you will soon notice a happy change in your condition If your first trial bottle does not benefit you, your money will be refunded See the Nerv Worth specialist at Stewart's drug store and learn all about the famous family nerve tonic and ask for a sample.

HEAR MR. HARDING SPEAK THIS EVENING

Democratic Orator Makes Masterly Defense Of League

Fully Presents Argument That Wilson Plan Will Make War Impossible

EXPLAINS WORKINGS OF ART. X

The Democratic mass meeting at the Driggs theatre last evening attracted a crowd which filled the big auditorium to the doors. The Crescent Band of Curwensville added zest to the occasion with its excellent music, while the speech-making, in which Democratic achievements came in for much praise, brought vociferous and long continued applause from the audience.

County Chairman Gorman and his aides worked hard to make the meeting the success it was and deserved the praises showered upon them by the "unterrified" after the meeting was over.

The assemblage was presided over by State Campaign Chairman Hon. J. Frank Snyder, while some twenty prominent Democrats from different parts of the county were called to the platform as Vice Presidents of the meeting. Woman's County Chairman Mrs. Jennie Bigler, City Chairman Mrs. Frank B. Reed and a number of other ladies interested in the movement also occupied seats upon the stage.

Hon. John F. Crosby, of Hartford, Connecticut, was the first speaker. Mr. Crosby devoted his remarks to a eulogy of President Wilson and his administration and gave particular attention to the League of Nations. He carefully explained the much-discussed Article X and disclaimed any possibility of danger from this provision, claiming that under its provision no action even advising stern measures could be taken unless by unanimous consent of the twelve members of the council of the league. He said the purpose of the covenant was to prevent wars and that is what it would do.

Mr. Crosby's address was scholarly, argumentative and made a distinct impression upon his hearers. It was a plain straightforward exposition of benefits to be derived from membership in the League of Nations and contained nothing offensive to the opponent of the covenant.

Mrs. Jean K. Foulke of West Chester, Vice Chairman of the Democratic State Committe, was the next speaker. Mrs. Foulk' address was modeled along different lines. She was the mother of two boys who saw service in the world war and sought to rally all the women of the land against future wars by assisting in making America a member of the League of Nations by the election of the election of Governor Cox to the presidency. Mrs. Foulke injected some old style stump speaking in her address and proceeded to flay the enemy with a biting tongue. She lashed Penrose and Harding severely and put lots of pep and spirit into her remarks.

Mrs. Foulke is no stranger to Clearfield, having been here at meetings of the Woman's club and the State Grange, and her many witty sallies were most generously applauded.

Candidate for Congress J. D. Connelly was the next speaker. He stated that Clearfield county made up more than half of the 21st Congressional and during the past fifty years was given representation but three times. He said the county had always been ignored when favors were being distributed and asked for support from his home people in order that Clearfield and Clearfield county might be given her place in the sun.

At the conclusion of Mr. Connelly's remarks Chairman Snyder read the following telegram to the audience which had been received during the meeting:

Washington, D. C., Oct. 11, 1920
Chairman of Meeting at Opera House
Clearfield, Pa.

The National Campaign committee of the Sixteen Railroad Labor organizations after full, complete and impartial investigation recommends to all voters of the 21st Congressional District of Pennsylvania that they work untiringly and vote against Evan J. Jones for re-election. His record is so bad that he should not be re-elected.

National Campaign Committee
Edward Keating, Chairman

Chairman Snyder then made a plea for community endorsement for A. W. Lee, of Clearfield ad Rembrandt Peale of Barnesboro, candidates for Presidential electors from the 21st and 15th Congressional districts. He closed his remarks with a real old-fashioned Democratic speech in which he extolled the virtues of all things Democratic and belabored and bedamned all things Republican.

It was a great meeting with plenty of pep and enthusiasm. Mr. Crosby was a master of oratory and a gentleman in his utterances. While partisan his address was, to say the least, instructive.

CLEVELAND WINS WORLD SERIES BY DEFEATING ROBINS

The deciding game in the World's Series opened at Cleveland at 2 o'clock today with Covaleskie, the spittball expert twirling for Cleveland and Burleigh Grimes, back on the mound for Brooklyn.

Olson opened the game by flying out to left field. Sheehan did likewise Griffith hit to first base. Covaleskie covered first but dropped the ball and Griffith was safe. Wheat retired the side by flying out to second.

In Cleveland's half Jamieson was out at first. Wamby went out on fly to left. Speaker ended the inning with a fly to third.

Myers was out from short to first in the second. Konetchy out third to first. Kilduff was out short to first.

Smith was out second to first Gardnerhit to third. Sheehan threw wild to first, Gardner going to second. Johnston was given a base on balls. Sewell went out on fly to right. O'Neil out second to first.

Miller started the third for Brooklyn by striking out. Grimes singled to short left. Olson hit to second, who fumbled and Olson was safe at first, Grimes going to second. Sheehan hit to second, the ball hit Olson while he was running and he was out. Grimes was held on second and Sheehan was given a single. Griffith flied out to second.

Coveleskie was out on three strikes. Jamieson went out pitcher to first. Wamby beat out a slow grounder toward third. Speaker out second to first.

Wheat opened the fourth with a single to right and was out at second when he tried to stretch it into a double. Myers out at firts and Konetchy went out on a fly to right.

Smith out at first unassisted. Gardner singled to right. Johnston followed with a single to right. Gardner going to third. Sewell out on fly to left. O'Neil up. Johnston stole second. The catcher threw to third and the ball went wild. Gardner scoring. O'Neil out on fly to right. One run, two hits, one error.

Kilduff went out on a fly to center. Miller out second to first. Grimes hit to pitcher and was out at first.

For Cleveland Covaleskie fanned Johnston. Jamison beat out a bunt and was safe on first. Wamby out on fly to left. Wamby stole second. Speaker tripled to right and Jamieson scored. Smith went out on fly to third.

One run, two hits, no errors.

Olson out on fly to center. Sheehan out second to first. Griffith out on fly to center.

Gardner out at first unassisted. Johnston was given four wide ones. Sewell out on fly to center. O'Neil out on fly to third.

Wheat out on fly to right. Myers went out second to first. Konetchy singled thru short. Kirduff hit to short. Sewell fumbled and Kulduff was safe on first. Lamar "pinched" for Miller and was out second to first.

O'Neil doubled to center. Coveleskie hit to the pitcher and O'Neil was caught between second and third. Coveleskie went to second on the play. Jamison doubled to right scoring Coveleskie. Wamby went out on fly to centre. Speaker was given a base on balls. Smith also walked filling the bases. Gardner forced Smith at second ending the inning.

Schandt batted or Grimes and went out short to third. Olson out at first. Sheehan out second to first.

Mamaux replaced Grimes and Johnston went out on fly to third. Sewell was out on fly to center. O'Neil went out on strikes.

Griffith went out on a fly to the right in the ninth. Wheat singled to centre. Myers forced Wheat at second. Konetchy out second to first and the 1920 World's series went to Cleveland.

BEAUTIFUL MANIACAL MISS OF 15 IS CHIEF BOLSHEVIKI EXECUTIONER

PARIS, October 12—A beautiful maniac is the chief executioner for the Bolsheviki according to French prisoners returning here today. The girl, described as a Lettish beauty, with raven hair and burning black eyes, kills her victims with revolver shots fired into the back of the head. The brawny axe man of medieval days has yielded to a slim girl with unerring aim and a lust for blood.

French prisoners were repatriated after having spent a term in the Butirki prison at Moscow. This institution was filled with 3,000 men from all ranks, students, workmen, robed priests and uniformed officers. All were herded into dirty cells which were the play ground for vermin. The prisoners described the girl as a raving maniac of 15 years of age.

MOUNTAINS WILL BE DRILLED TO FIND GAS

Thorough Test of Lands Near Clearfield Is About to Be Made By Pittsburgers

MACHINERY IS ARRIVING HERE

A company of Pittsburgh capitalists have arranged to drill for gas on the mountains about fourteen miles north of town and propose making an extensive test for both oil and gas in that region.

It has long been contended that the gas and oil belt passes thru the mountain ridges north of town and it is now proposd to establish that fact once for all or else demonstrate that this section of Clearfiled county at least is offside so far as the oil pool or basin is concerned.

These Pittsburgh capitalists, who prefer to remain incognito, have had all the mountain lands on the headwaters of Trout, Lick, Stone and Medix runs under lease for years and this is the first time a real attempt has been made to determine whether or not these highly desirable materials exist in paying quantities.

Several years ago a well was drilled opposite the John Whaling farm house on the Amos Owens farm but neither gas nor oil was found. Those in charge of this operation contend that the drilling was done in the wrong place or at the bottom of the basin or pool, whereas it can only be hoped to find gas at the summit or high point in the field.

The first well to be drilled at this time will be located between the Punxsutawney and Pitch Pine camps, and water for the use of the drill will be taken from the Punxsutawney camp branch of Cold Stream.

The work is in charge of geologist A. A. Williams, of Ridgway, who has spent the past summer on the mountains getting things in readiness for the new operation.

Several car loads of machinery destined for the new operation arrived in Clearfield yesterday and the work of transporting it to the location of the proposed gas well will be started tomorrow. Nine teams will be used to haul the same up the mountain. The McGeorge road will be used from the Goshen camp out and the road is now being repaired for that purpose.

The concerns interested have possibly forty thousand acres of land under lease every bit of which will be tested for oil and gas. This lease includes the 22,000 acre holding of the Witmer-Stele lumber company, who recently disposed of about all of the surface, retaining the mineral rights on same.

Ex-Sheriff Con Allen, City Chairman Thomas Munro and legislative candidate John P. Rogers, of DuBois, attended the Democratic meeting last evening.

'Squire Duckett and wife are visiting friends in Stoneboro and Cleveland.

Miss Elizabeth Bain has returned from a visit with relatives and friends in Bedford.

Mrs. Howard Milligan spent today shopping in Altoona.

MINERS ARE VOTING FOUR TO ONE TO STAY AT WORK

That the miners of District No. 2 U. M. W. of A. will not sanction a strike and an abrogation of the scale agreement in the referendum vote that is now being taken, is the unanimous opinion of persons interested today, although there is still a possibility that a strike will be voted.

Returns from locals in this vicinity indicate a sentiment of four to one against striking, and President John P. Brophy, at headquarters, stated that the general sentiment throughout the entire district as the headquarters staff is able to interpret it, is about the same ratio against striking.

Average 4 to 1.

In the DuBois region, Helvetia, Sykesville, Waston and Wishaw, have all taken their votes, while the other mines in that section will vote some time between now and Saturday.

Figures for Helvetia, Sykesville, Walston and Wishaw are not given out as yet, but reports from these locals indicate that Sykesville voted 5 to 1 against strike, while Walston voted 3 to 1 against a strike and the majority at Wishaw and Helvetia was equally overwhelmingly in favor of working, the percentage being 4 to 1 against a strike.

All of these are big locals and, added to the 8 to 1 majority for working gien by the two South Fork locals, gives the proposition to strike a severe handicap. No others have yet reported, as far as can be learned, and it is belieed that practically all will render decisions against a strike, the average being about 4 to 1.

The voting will all be comp[illegible] this week, Saturday being the last [illegible] for reporting them, but it is not [illegible] lieved that the official totals will be announced before October 23.

HUNTINGDON HIGH TAKES CONCEIT OUT OF RED AND BLACK

By DICK LEIPOLD

On last Saturday morning Coach Heisey and his squad of "pig skin artists" made their weary "wind over the mountains to Huntingdon to do combat with the Huntingdon High for supremacy of the gridiron

The "Hun"-tingdon team, still peeved by the sting of former defeats, had been preparing to get revenge, and C. H. S. had no sooner alighted from the train than they were confronted with a "gas attack" as to how they were going to be wiped up.

The "gas" evidently had its deadly effect. for after hostilities ceased and the smoke of battle cleared it was discovered that in addition to other devastation created by the Huntingdon team, they had piled up 68 points to Clearfield's 0 — "Ain't that terrible? You tell 'em, Valentine. I haven't the heart." But don't think for a moment that C. H. S. retreated. They fought with their backs to the wall to the last minute, having to contend with the deadly flying tackle around the neck—not permissable in modern

WONDERFUL MAGNA VOX WILL BE HEARD ON THE COURT HOUSE CORNER

HARDING-COOLIDGE CLUB BRINGS SPEECHES OF HARDING, COOLIDGE AND HAYS TO BE HEARD TONIGHT

M. WARD FLEMING WILL SPEAK

Today marks the beginning of the Repubican campaign in Clearfield for the election of the Harding-Coolidge ticket and a general booster meeting [illegible] the Harding-Coolidge club has been called for eight o'clock at which there will be an interesting, entertaining and instructive program carried out.

The club today received Columbian Records of the speeches of Messrs. Harding, Coolidge, Hays and Mrs. Corrine Robinson, a sister of the immortal Roosevelt. If these records were to be played on the ordinary talking machine it would not be much of a novelty but these records are the only ones of their kind in Clearfield today and in addition to that the speeches are to be reproduced on the wonderful Magna-Vox, a high powered voice amplifier which will enable the wisdom of these patriotic citizens to be heard more than a block away from the machine. It is expected that the machine will be set up on the court house steps so that no difference how large the crowd there will be an opportunity for all to hear the speeches of the Republican candidates and Mr. Hayes and Mrs. Robinson.

The titles of these speeches are:
"Americanism" by Mr. Harding.
"Law and Order" by Mr. Coolidge
"Citizenship" by Mr. Will Hays
"Safeguard America" by Mrs. Robinson.

There will also be a musical program of band music on the Magna-Vox.

M. Ward Fleming, Esq., of Philipsburg, and local orators will be on hand to discuss the political issues.

Eerybody turn out, men and women and children. There will be room for all on the public square.

THE BATHTUB STEW IS LATEST BOON TO MANKIND: SERVES TWO PURPOSES

The newest method of lawfully showing the eighteenth amendment a thing or two: The Bathtub Stew!

Cheap, very effective and entirely legal are some of the points that have made the new souse so popular, according to many of its devotees, and to many city physicians as well.

So here it is:

Recipe—One gallon of medicated alcohol; one gallon of very [illegible] water; [illegible] minutes. Result "One [illegible]."

The Saturday night [illegible] and the Saturday jag combined [illegible]

And not only is there economy of effort, but more important, there is a large saving in the weekly pay. For one bath is not gone as is one drink, but remains to be of service Saturday night after Saturday night.

If such were not the case, a bathtub stew, no matter how exhilerating and enticing would come at a rather steep figure. Medicated alcohol sells at most drug stores at $1.25 a pint. A gallon would therefore, hit the bank roll to the extent of $10.

For that amount a reasonably good jag can be obtained on bootleg whisky and, as the male of the species has beome more accustomed to drinking than bathing—that is of course, bathing to get pickled—the old-fashioned method of mounting the heights would prevail over the new.

But here is the idea: One has his valet prepare his tub or he prepares the tub himself, as the case may be, and then he lies quietly in the steaming water until, as the saying of the olden days was he "begins to feel himself slipping." Then he goes to bed and drops to sleep, or wrecks the furniture; or becomes kind to his wife, according to his nature. In the meanwhile, the valet, or one of the children, or someone, who is not apt to be the wife, re-bottles the bath, and all that it requires for the next stew is reheating. And so on and so on,

NO PROOF THAT LEAGUE WILL END WARS

IS AMERICA BOUND TO GO IN?

A PARADE OF HORRORS PASSES IN REVIEW

ANOTHER PARADE MAY COME OF LEAGUE

No harm could have come to any person thru attendance at the Democratic mass meeting held last evening which was addressed by the Honorable Mr. Crosby, an able exponent of the Wilson league of nations plan. This league plan, be it good or bad, the dove of peace or the beast of the cloven hoof, is altogether too serious a matter to be disposed of on strictly party recommendation. No patriotic, truth seeking American with the interest of his family and his fellow citizens at heart can afford to take snap judgment on such a matter and while the lecture or political platform is about the last word in biased information yet it could reasonably be depended upon that no argument in favor of the league would be overlooked by so ardent a Wilson man or able speaker as Mr. Crosby. It was this desire for knowledge that took dozens of Republicans, the writer included to the Driggs Theatre last evening. It would be an untruth to say that we were entirely of an open mind because as a practical idea we have never been able to work up in our own mind any great enthusiasm over the league plan.

Mr. Crosby's argument that our job "over there" was not complete until war is put beyond the pale of being a possibility is based wholly on the presumption that the mere existence of a league would prevent war and does not take account of the fact that the nations of the league would have to wage war on the criminal nations, as he called them, in order to subdue them. The gentleman forgot himself to such an extent that he pointed out how nearby nations would handle recalcitrants thus inferring that ours would be no more than an honorary membership fighting economically, possibly making munitions and sending them wheat flour while we once more lived on war bread a la Hoover.

Our national honor in connection with the league was masterly handled. He gave dates and quoted undisputed facts in support of his contention that the Republican party platform of 1912 and 1916 endorsed a league plan, that the U. S. Senate had on at least one occasion gone on record as favoring a league to end wars, that it had at one time passed a resolution calling on President Wilson to take steps looking to the formation of a league of nations. But here he ended. He gave us no proof or even statement that the U. S. Senate had even intimated to President Wison that he should impose a treaty and league plan upon the American people without consultation with them or with their duly elected representatives.

It is a singular fact that no platform orator, particularly a political orator, makes any allowances for honesty in the convictions of his opponents. It was the heighth of absurdity for Mr. Crosby to emulate Mr. Cox in charging Smoot, Lodge and Penrose with defeat of the league plan. Never did this newspaper give any of this trio a commendatory line. It could not follow their lead although it will proudly march with them under the banner of Americanism. The immortal Roosevelt, the very antithesis of that trio, joined hands with them in honest purpose. The "Senate oligarchy" is a phrase that will make little appeal to the intelligent voter who believes in representative government as against one man rule and we believe that the strenuous fight the Democratic party is making in defense of Mr. Wilson and his international policies is evidence that the members of the U. S. Senate were just a little closer to the "heart of America" than was Woodrow Wilson when he landed in New York from Europe the first time and within four hours after landing, and after an absence of many months, gave out for European consumption, a speech declaring America was for the league.

The speaker declared the league issue transcends all domestic issues but before seconding that statement we feel like making some "interpretive reservations." If the emphasis is placed on the word issue we agree. In Article Ten we find the heart of the covenant, the teeth of the pact. Of it Mr. Wilson said:

"There is a most compelling moral obligation." Americans must and do look upon moral obligations as being on a par with the written bond. Could anthing be more compelling than a moral obligation when a nation's honor is at stake?

AND Mr. Cox, apparently fearing the words of Mr. Wilson, scraps the moral obligation and points only to the legal obligation saying in his memorable speech "any school boy knows that we cannot go to war with anybody until congress gives ts sanction."

Now along comes Mr. Crosby from Connecticut to explain in detail the functions of the league council and show us that our nation cannot be drawn into a European war until the council by unanimous action endorses the move and declares that since the United States is represented in that council by one vote the acquiescence of this one representative of the United States will be necessary before we are drawn into war. So far so good and all true but the polished political orator knew when to quit. Just at this point the orator graphically described the horrors of war, the ravishing of cities, the sufferings of men, the terrible slaughter of mere boys, the anguish of mothers, wives and sisters and brought his oration to a close with a parade of the dead, the maimed, the disease wrecked of the late war.

Of all the factors that enter into the consideration of international relations sentiment is the most dangerous. In dealing with the old politicians of European nations there is no place for sentiment for the very simple reason that in a Cemenceau, an Asquith, a Lloyd George, a Bismarck, an Ebert, a Millerand, a Vinezelos, a Nitti, et al., there is no sentiment. Their bickering and bartering over territorial rights in which even Mr. Wilson had to sacrifice his Utopian fourteen points should be proof sufficient that there is no charity in them and any party to the covenant who signs on a basis of mere maudlin sentiment is crucifying itself on a cross of its own making.

We cannot look at the league plan from a sentimental standpoint. It is impracticable and impossible. We must look at the hard cold facts of our responsibility as members. And while the parade of dead, maimed and wretched was being oratorically paraded past the audience in the theatre last evening we could not help but see another parade passing down a street in the great future, a parade far more pitiable. We cannot say that the apparition we saw will happen but it is one of the possibilities under the league plan.

We saw Europe again embroiled in a selfish trade or racial warfare with one or two nations chafing under the restraints of the league. The league council was hastily summoned, including the American member. Their action in making war to crush a criminal nation or nations was all but unanimous—the American member hesitating about again putting the young men of his country at the beck and call of European militarists. He knew there was no legal obligation for him to do so but there arose in that council a cold-blooded tactician who gazed steadily into the eyes of the American member, pointed his finger at him and exclaimed, "the author of this instrument, the head of your own nation, has said 'there is a most compelling moral responsibility' are you going to shirk it?" No! He cannot shirk thee responsibilities thrust upon us. He joins in the recommendation. It comes to congress. They hesitate when again the same cold finger is directed at them by the foreign ambassadors at Washington, the munition makers join in urging this high moral action, every pressure is brough to bear upon us—and congress must perforce yield.

Once again we hear the roll of the drum, the call to arms, the summons of draft boards. Once again they set foot on European soil—not to prevent wars but to help fight all wars. Once again they return maimed and wounded. This is the other parade we saw.

But, you say, if there is any possibility of preventing a war why not go into the league?

In the recent war with Germany the people of this nation were the sole judges as to the necessity of going to war. Once in the league we will lose that sovereignty and be subject to "the most compelling moral obligation."

We have a son who, in the event of an attack on this nation or an attack on its citizens in other climes, we shall be proud of when he answers the call of his country but God forbid the day when he shall be called upon to go to Europe or Africa or some other clime to fulfil that "most compelling moral obligation" thrust upon us by a man whose idealism led him to dreams of a super-world empire whose mission it would be to chastize all the wayward nations on God's footstool with himself as Chief Disciplinarian.

DOUBT TRUTH OF CONFESSION MADE BY PASQUALE

NORRISTOWN, Oct. 12.—Geo. H. Coughlin, father of Blakely, today was inclined to doubt the confession of August Pasquale that he had accidently smothered the child and buried it near Egg Harbor. Nerve racked after a day spent with the state police in searching for the grave at Egg Harbor Coughlin harbored a hope that the confesion is false and that Blakely was alive. Long confinement in a cell in the Norristown prison is believed to have unnerved Pasquale so that he told wild stories. The nerve center for the search for the grave for little Blakely is the room in the Coughlin residence where the mother sits and weeps for hour after hour for news. Supported for the first few weeks after the kidnapping by the hope that Blakely would be returned soon she is now on the verge of collapse by the latest confession of Pasquale.

HARRISBURG, Oct. 12—Efforts to locate the body of Blakely Coughlin along the banks of the Schuylkill river near Norristown under the supervision of Major Lynn Adams of the Penna. State Constabulary have been unavailing, according to the Department of State Police here today. After searching where Pasquale in his confession alleges he buried the body a piece of string and a rail to which the kidnapper said he had tied the baby were the only things found. This information was telephoned to the office of the state police this afternoon by Major Adams who has been directing the search for the boy after Captain Gerhardt had been called to assist in the search along the river banks. A professional diver has been engaged, and is working around the spot where Pasquale said he threw the body into the river.

Civics Explained.

Mrs. Profiteer, says "Beachcomber," in the Daily Express, was very proud of the stunts they were doing at the smart private school to which she had sent her daughter. "My dear," she said to her friend, "she's learning civics if you please." "What's civics?" asked the friend. "Civics? My dear, don't you know? Why, it's the science of interfering in public affairs."

Medium of Exchange.

Coconuts are the common form of exchange among the natives of the Nicobars. For instance, a box of matches is worth 20 coconuts while for needles the price is one coconut each.

Hog Tight Fences

[illegible] Service.]

A HOG naturally is as clean as a dog or horse. While he [illegible] to wallow when flies are [illegible] are against him, [illegible] to be clean and will [illegible] in clean water the same as [illegible] other animal.

Any farmer who is in the hog [illegible] knows that it does not pay [illegible] to a hog any more than absolutely necessary and [illegible] hog in order to be healthy, [illegible] harvest his own crops.

[illegible] whether pasture of rape or corn is to be utilized, the foundational necessity is a fence which will hold the hog where you put him and not allow him to do damage to other crops on your own or neighbors' farms.

In every rotation the fields should be so fenced that the hogs can do all of the harvesting possible. In planning a rotation the matter of permanent and movable steel fence is of the utmost importance.

The cafeteria system of hog feeding is the most profitable and "hogging down fields" is the most economical way to harvest.

How We Care For Your Meat Cars

When you see a Swift Refrigerator Car going by in a train, it seems a simple thing that it should be carrying fresh meat up and down the country.

Like most of the packer activities which contribute to your welfare, you are so used to having this going on uninterruptedly, day in, day out, throughout the year, that you are likely to take it as a matter of course.

But it is not a matter of course. Every car you see going by means long hours of minute, scientific, painstaking care in preparation for what it is doing.

Every time a car comes in it is washed out thoroughly with scalding water. If any taint, any foreign matter, were present, this would get rid of it. Even the meat hooks are taken down from the racks and scalded with water and live steam.

When the car is thoroughly cleansed we put in 5,000 pounds of ice. But that is only preliminary. It only cools the car to the proper temperature. By the time the car is moved over to receive its load, this first ice is melted. More is then put in to keep the car cool.

Then the meat is hung on the sterilized hooks and the load of food is ready for its journey. It arrives as it leaves, clean, fresh, wholesome, appetizing; and your meat supply goes on unaffected by seasons or weather.

This is only a part of the service which Swift & Company furnishes, at a profit to itself so small—averaging a fraction of a cent per pound on all products over a period of years—that if the profit were handed on to the consumer, it would make a difference of less than a nickel a week in the meat bill of the average American family.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Rev. John C. Collins has announced that he will deliver his celebrated lecture on the subject of "The House That Jack Built," in the Methodist church on Thursday evening, October 21st. Last Friday evening he delivered a lecture at Curry Run.

Don not forget the meeting called for tonight of citizens of this borough and of Pike township to be held in the high school building for the purpose of forming an organization in the Clearfield county hospital drive. Are you interested? You do not know how soon you or some member of your family may be compelled to ask admission to this institution. Women as well as men are vitally interested in this movement. All come and assist in this most worthy cause.

Mr. William Rassell of Grampian visited over Sunday with Curwensville friends.

Owing to a decision rendered last week by the State Commerce Commission it is left in the hands of the railroad companies whether or not the coal wagon loaders will receive open cars in which to load coal for the open market.

During the fine weather of two or three weeks past the contractors of the State Highway, between this place and Hyde city have been pushing the work along admirably and a great deal has been done toward the road's completion. Should good weather hold out for another month, the road will pretty nearly reach completion, or near enough so as to allow the driving of vehicles over it during the winter months at least. It would be a great relief to travelers if this road could be used, thereby cutting out that bad detour by way of the Porter bridge, which becomes almost impassible during the bad weather months.

James Decker has purchased from Oliver Strunk, administrator, a dwelling house and lot over at Eastvue, paying for the same the sum of $1,100. The property is conveniently located and in a short time Mr. Decker will make a comfortable, neat home out of it.

Born, to Mr. and Mrs. Edward Back, at their home in Naulton, at an early hour Monday morning, a young son, making the fifth male heir in the family.

Mr. Samuel Martin drove his car from Niagara Falls last week, and contemplates spending several days in Curwensville with his mother, Mrs. Henry Martin and several sisters.

It has been announced by rumor that Mr. Lester Bartell and Miss Edith Blake were wedded about one month ago at Buffalo and are residing in Detroit, where Mr. Bartel is engaged in a responsible position with one of the large automobile manufacturing plants. The bride is a daughter of Mr. and Mrs. John Blake of this place and for several years has been following the profession of a trained nurse in one of the leading hospitals in Rochester N. Y.

Mr. D. R. [illegible] home [illegible] Mendota, Ill. On his way home he stopped over a day in Chicago, and spent the time with Willis Tate, an old Curwensville boy, who is engaged in the insurance business. He reports that the crops in the Hoosier state are about on the average though [illegible] cover or in sheds and barns.

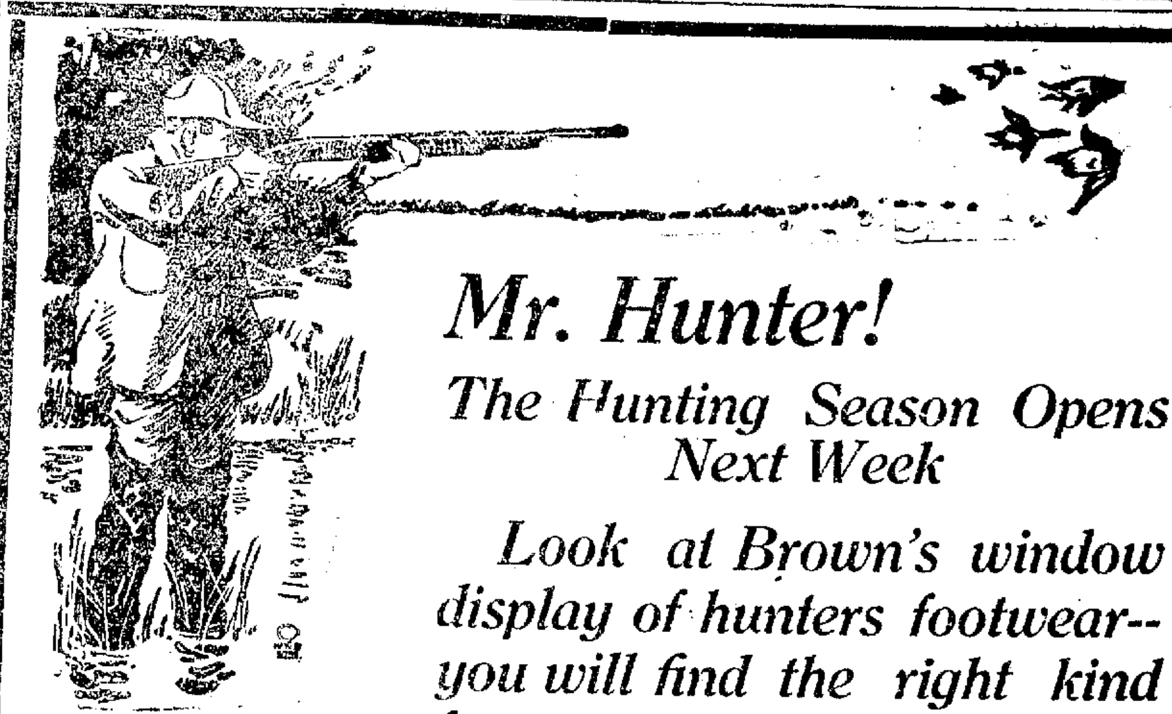

From reports that have reached us, old Curwensville must have been indulging in some of its old time tricks, when booze was a little easier to procure at a much less cost than now. Several fistic encounters were pulled off Saturday night, as the result of which some eight arrests have been made, the participants being asked to appear before 'Squire Dale Wednesday evening and show cause why they should not be assessed with the usual fine.

Mr. John Haley, who has been engaged in the lumber and coal business near Lumber City and farther up the river, was a business visitor to town yesterday. He is at present operating a mine near his own town, Lumber City, and also is engaged in other lines of business which takes up considerable of his time.

Mr. Willi[illegible] Dyer has gone to South Carolina where he has secured a lucrative position. "Pass" has a good many friends in Curwensville who wish him luck in his new home.

Lim Daugherty is a great fellow to fix up his store windows in a manner which attracts the eye of every man who has any sport in him and who likes rod and gun. Two [illegible] of his skill can be seen, one in each window of his store and [illegible] a good deal of attention.

Mr. [illegible] in this letter.

Mr. Hunter!

A JOINT RESOLUTION

Proposing an amendment to Article nine, section eight of the Constitution of Pennsylvania

Section 1 Be it resolved by the Senate and House of Representatives in General Assembly met That the following amendment to the Constitution of Pennsylvania be and the same is hereby proposed in accordance with the eighteenth article thereof —

That article nine section eight be amended to read as follows

Section 8 The debt of any county city borough township school district or other municipality or incorporated district except as provided herein and in section fifteen of this article, shall never exceed seven (7) per centum upon the assessed value of the taxable property therein, but the debt of the city of Philadelphia may be increased in such amount that the total city debt of said city shall not exceed ten per centum (10) upon the assessed value of the taxable property therein nor shall any such municipality or district incur any new debt or increase its indebtedness to an amount exceeding two (2) per centum upon such assessed valuation of property without the consent of the electors thereof at a public election in such manner as shall be provided by law. In ascertaining the borrowing capacity of the city of Philadelphia at any time there shall be deducted from such debt so much of the debt of said city as shall have been incurred, or is about to be incurred and the proceeds thereof expended or about to be expended upon any public improvement or in the construction purchase or condemnation of any public utility or part thereof or facility therefor if such public improvement or public utility or part thereof whether separately or in connection with any other public improvement or public utility or part thereof may reasonably be expected to yield revenue in excess of operating expenses sufficient to pay the interest and sinking fund charges thereon. The method of determining such amount so to be deducted may be prescribed by the General Assembly.

In incurring indebtedness for any purpose the city of Philadelphia may issue its obligations maturing not later than fifty (50) years from the date thereof with provision for a sinking fund sufficient to retire said obligations at maturity the payment to such sinking-fund to be in equal graded annual or other periodical instalments. Where any indebtedness shall be or shall have been incurred by said city of Philadelphia for the purpose of the construction or improvements of public works or utilities of any character from which income or revenue is to be derived by said city or for the reclamation of land to be used in the construction of wharves or docks owned or to be owned by said city such obligations may be in an amount sufficient to provide for and may include the amount of the interest and sinking fund charges accruing and which may accrue thereon throughout the period of construction and until the expiration of one year after the completion of the work for which said indebtedness shall have been incurred and said city shall not be required to levy a tax to pay said interest and sinking fund charges as required by section ten article nine of the Constitution of Pennsylvania until the expiration of said period of one year after the completion of said work

Sulphur Is Best To Clear Up Ugly Broken Out Skin

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho Sulphur, says a noted skin specialist. Because of its germ destroying properties nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho Sulphur heals eczema right up leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigurement. A little jar of Mentho Sulphur may be obtained at any drug store. It is used like cold cream.

"WITH the rigid supervision of beauty doctors and [illegible] now in vogue in all cities the sterilization of instruments [illegible] cleansing of the hands and clothing of the operator are of first importance," says Emily [illegible] a popular writer on cosmetics.

"Hands always should be thoroughly cleansed before touching the patrons face [illegible] hands or feet, [illegible] brushes [illegible] washed in soap and water immediately after use, then immersed in a formaldehyde solution and dried in the sterilizer in which they may be subjected to the fumes of formaldehyde until ready for use."

It is a comparatively easy matter to sterilize hair brushes and combs at home. A few drops of formaldehyde in hot water and thoroughly drying and sunning of the hair brush after combing it out will prevent it from spreading dandruff or other disease.

We Fit Correct

The correction of vision defects is more than merely trying on glasses until you find a pair that apparently fits.

We go farther than that. We use instruments scientifically designed to detect the eye defects and after a careful diagnosis of the instrument readings we fit lenses that will overcome the trouble.

Come in and ask us about it.

MARQUARD GUILTY WILL BE BARRED FROM BROOKLYN

CLEVELAND Oct. 12. — Rube Marquard cannot play base ball with the Brooklyn Robins again, owner Chas. Ebbets declared this afternoon after he had been found guilty of ticket scalping. He will not withhold his World Series money as he feels Rube has been punished sufficiently by the notoriety he has been given. Rube was given a nominal fine.

The officer who made the arrest said he had heard a man ask Marquard where he could get tickets and Marquard took him to one side. Marquard said he would sell him six tickets for $350. The man could not be tempted. Another man approached Marquard with a similar request and again Marquard took out the tickets and offered them for $350. "A clerk at a cigar stand tipped Marquard off that I was a detective and Marquard put back the tickets," the officer testified. "I told him I had heard him offer the tickets and that it was a violation of the law and that he would have to come with me."

He said at headquarters that he was the fall guy for the tickets. He said he had bought them for $275. Marquard defended his action on the ground that it was a joke. "I was just joking with a man I knew very well," he said. Among the spectators at the hearing was John Heydler, President of the National league. He said he would take no official action against Rube.

Rats Cause Loss to Cane Growers.

Cane growers in Porto Rico estimate their annual loss at $75,000, due not only to the cane actually destroyed, but also to the fermentation set up in the cane juices in the stalks that had been gnawed upon, thus reducing the purity and the sucrose content. This loss was based upon the estimate that only one-half of 1 per cent of stalks were attacked by rats; but in reply to inquiries, the estimates made by different planters varied from 1 per cent to 4 per cent of stalks attacked by rodents.

(Continued from page one.)

foot ball, and were also handicapped by the excessive avordupois that Huntingdon possessed.

When Clearfield was on the offensive it was noticeable that Huntingdon knew exactly where the ball was going, and after the game was over some Huntingdon players "spilled the beans," and volunteered the information that they had a scout at the Clearfield-Kane game who made note of all the Clearfield plays, and the Huntingdon scrubs used them all week against the varsity.

Like the regular "Huns" the "Hun"tingdon players used many methods of warfare not recognized in modern foot ball. Their cohorts, the assemblage, was also hostile while the battle raged and extended no sympathy to our injured players, not even allowing them to recuperate when knocked out. At one time during the game, C. H. S. had but ten men playing, having utilized all the "subs."

After the war clouds had passed, and peace reigned once more, the Huntingdon boys liberated the dove, and entertained the vanquished warriors from Clearfield to a party and dance, which helped considerably to soothe their "sores."

C. H. S. did not show the pep that was expected of them, which was no doubt due to the unexpected form of attack that Huntingdon cut loose, but they need a shaking up, and a game like this early in the season is just what was needed to reform them, and as Huntingdon is noted for its reformatory, it couldn't have happened in a more appropriate place, and since the reformation, the C. H. S. boys have set their jaws and will dig in as never before to win back laurels for the Red and Black by beating Clarion Normal here next Saturday afternoon with the clean brand of modern foot ball that they are noted for.

Big Eaters Get Kidney Trouble

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you

The American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure makes a delightful effervescent lithia water beverage and belongs in every home because nobody can make a mistake by having a good kidney flushing any time.

World Series Men Need Not Worry About Coal Bills

(Continued From Page One.)

coal for the winter. Far from it, as they will have the pleasure of splitting a robust purse of $214,882.74 for their baseball doings in the first five games, three at Ebbets Field and two in Cleveland.

Of this tidy amount the contesting players will receive 75 per cent. and the second and third clubs of the American and National leagues the remaining 25 per cent. The other clubs to cut in on the spoils are the Yankees, Giants, White Sox and the Reds.

Therefore the Robins and the Indians will divide $161,160.05, of which 60 per cent will go to the winners and 40 to the losers. If the Indians win the series they will become the owners of $96,696.03. This will be divided among twenty-three players and the individual share will be $4,204.17. One full share will be presented to Mrs. Ray Chapman.

If the Indians lost they will divide $64,464.02 and each Cleveland player's portion will be $2,802.78.

Because twenty-seven players are eligible to take part in the series, each Robin will recieve less than $1,000 if the Brooklyn team eventually wins the series. If every one of the twenty-seven players receives one full share, the individual part of the spoils for the Robins, will be $3,581.33. If the Robins lose, each Brooklyn player on the basis of twenty-seven shares, will receive a check for $2,387.48.

Most likely not more than twenty-two players will receive a full share, as Bill Lamar and Tommy Sheehan joined the club late in the season, while George Mohart, John Miller and Bill McCabe took part in only a few games during the pennant race. The regular Robins, if they beat the Indians, will receive approximately $4,000.

The Yankees, Giants, Reds and White Sox will split $53,722.64.

In neither case are the figures as great as for the last year's series, when the winning Cincinnati players got $4,881.55 each and the White Sox $3,254.37. Fifteen Chicago players not implicated in the scandal that was attached to that series received a $1,500 bonus from Charles Comiskey.

The receipts of the remaining games go to the two clubs and the National Commission. The clubs will get 90 per cent and the National Commission 10 per cent.

JAMES H. MINDS ADDS $5000 TO HOSPITAL FUND

James H. Minds, coal operator of Ramey, and Clearfield County Pioneer, KNOWS the Clearfield Hospital—knows of its accomplishments and its efficiency. And when he learned of its conditions and urgent needs he sent in a $5,000 Liberty Bond to help along the campaign for a $200,000 maintenance, endowment and building fund for the hospital. Mr. Minds' gift was the largest recorded yesterday.

Through the aid of the Clearfield Hospital several of Mr. Minds' relatives have been restored to health, the most recent being his daughter, Mrs. J. W. Sceruman, wife of the Grampian grocer who is district chairman of the campaign in his region.

"This most generous gift is most praiseworthy," said H. B. Powell, who is general chairman of the campaign, "in view of the fact that Mr. Minds lives somewhat outside the border of the area served by our hospital Though this is but one of many charities, we believe the gift of Mr. Minds indicates the kindliness with which the movement is regarded by the people of Clearfield county."

Tabulations have not yet been sufficiently completed to enable the names of the many donors to be published, but the entire list, which is growing hourly, will be announced as soon as possible. The team workers today reaped another golden harvest, and the total to date is roughly estimated at $60,0000.

All now depends on the thoroughness with which the team workers make their house-to-house canvass throughout the county. The weather is in their favor and has whetted their enthusiasm, with the result that big strides already have been made toward the $200.000 goal.

Do Not Disturb the Silk Worms.

In the Chinese silkworm hatching rooms the temperature is tested by naked men. Thanks to the sensitiveness of their skins these fellows keep the heat moisture just right. As you stand in the vast Chinese silkworm houses you hear not only the sound of the worms feeding on mulberry leaves, but also the actual sound of the silk spinning—the spinning of their cocoons—a sound like rustling rain.

CARD OF THANKS

Mr. and Mrs. Helmer Jonhson of Dorey street wish to express their many thanks to their kind friends and neighbors for their greatfulness toward them during the illness and death of their son Victor and daughter Elsie. The Johnson home was a bright and cheerful little home, of which consisted of four little bright children just in the bloom of life. Now there is very much sorrow in their little home over the loss of the two little childrn who were called to the better world. Yet is it sweet to think they are in better hands than anyone in this world can offer them. Would it not have been more sorrowful to the little remaining family had they not had helping hands and cheerful words to comfort them?

Many, many thanks are offered to Mrs. Russel Williams and Mrs. Lloyd Thompson for their faithfulness and much toil from the beginning of the illnes sand death of the two children. They, too, offer equal thanks to every friend and neighbor who gave a helping hand and strived to make the Johnson home happy once more with the thoughts of leaving their loved ones just for a while and expect to meet them some day in the new world.

Mother of Two Pairs of Twins, and Still Enjoying Good Health, Thanks to Nerv-Worth.

"My wife is the mother of twin boys, 4 years old, and another pair of twins, 9 months old. Looking after these children was quite a strain on her, and besides, she suffered from severe nervous trouble for the last four years. She couldn't get any sleep or rest, and she doctored a great deal, but got no relief. Through a friend she was advised to take Nerv-Worth. I purchased a bottle for her, and she at once began to improve, and now after taking the second bottle, she has lost all her nervousness, and is rapidly gaining strength and weight. We surely recommend Nerv-Worth, as it has been a blessing to us." Thus wrote Dave Harris, of 411 Vine street, New Castle, Pa., some time ago in an effort to show his appreciation for the good Nerv-Worth has done for his wife Raising a family is quite a job, and these are many women who's daily tasks have become a burden to them because of the fact that their nerve force is low, their stomachs deranged and their health not up to normal. The daily work of a mother causes a constant mental and physical strain and it is necessary that this be avoided, otherwise the whole system suffers. Keep your nerve force up and your whole system will be in good shape. Take Nerv Worth and you will soon notice a happy change in your condition If your first trial bottle does not benefit you, your money will be refunded See the Nerv Worth specialist at Stewart' drug store and learn all about the famous family nerve tonic and ask for a sample.
